versatile technology with our DGT 100

NEW WEIGHT INDICATOR/REPEATER WITH 100mm DISPLAY

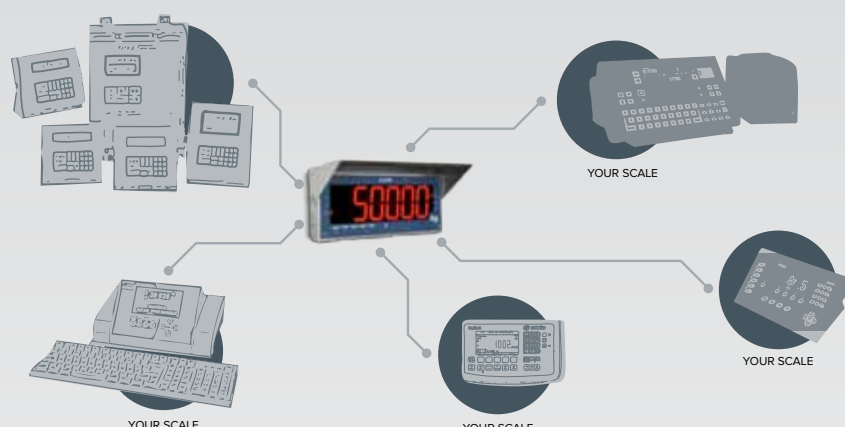

- ✓ Constructed in **AISI 304 STAINLESS** steel
- ✓ 100mm display with **VERY BRIGHT RED LEDs** with adjustable brightness intensity
- ✓ **Protection visor**
- ✓ New design, **with attention to every detail**
- ✓ Fitted with **anti condensation air valve**.

One product, **more applications.**

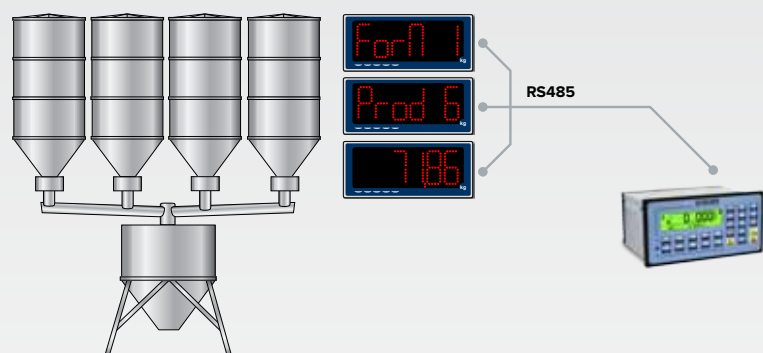

Universal repeater.

Thanks to the evolved program, it is **possible to integrate the DGT100 repeater with existing weighing systems**, simply and quickly adapting the communication protocol to the one of the leading manufacturers weighing systems.

Each data in under control of: DGT100 repeater in network.

Via the RS485 fitted port, you can create networks of DGT100 repeaters for the **simultaneous display of multiple data**.

Indicator and repeater in a single solution.

DGT100 **combines the advantages of the large display to a weighing multifunction program**, able to read and directly manage up to 16 load cells. This function allows you to view and transmit the weight of a weighbridge, platform floor, an overhead crane scale.
