## P18 Intelligent Label Printing Scale

### Embedded Linux Operating System

#### ■ Handy self-serve operating environment

Select a product can be automatically broadcast audio products, Can promote the customer shopping fun, also can reduce the increasing labor costs, give customers a new experience.

#### ■ The PowerADd patent technology

It's using PowerADd technology for to get the hassle free operations with the high standards.

#### ■ Products through the international accreditation

P18 Intelligent Label Printing Scales are OIML and CE approved.

#### ■ User Interface & Data Management

The high definition touchscreen is quick and easy to use, PLU data management is able to store up to 99999 PLUs, self-labeling operation could help customers to save time and labor cost.

#### ■ Touch operating HD display

Resistive type of touch operating display, 18.5" display size, 1366x768 resolution smart and easy to operate..

#### ■ Rich user interface

Has the rich interface such as , 2 x USB , 2 x RS-232, 1 x RJ45, 1 x RJ11 , 1 x Mini USB , can connect various peripheral configuration.

## Your Precision Partner

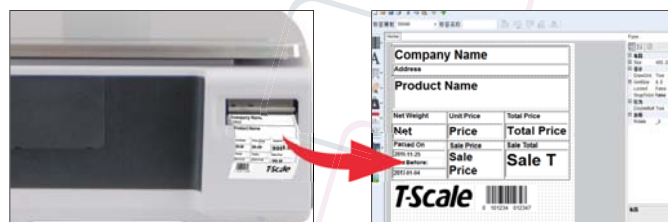

## Embedded System

- ARM Embedded System (Linux)
- Stable and low power consumption
- Affordable price, no license fee required
- High scalability

## Customized Format

Programmable for to get customized Formats

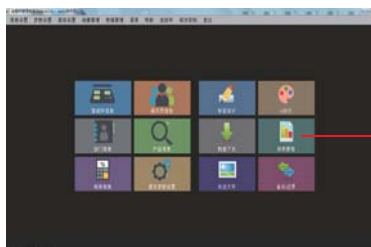

## Cassette System

- Side cassette for immediate change of paper roll
- Support label, linerless and receipt rolls
- Printing speed: 100mm/sec
- Printing width: 54mm
- Printing length: 18cm

## Backoffice Management

User-friendly back office software allowing to create customized labels, UI (Operation Interface), Product updates, promotional video & pictures updates, report management, data import & export etc.

Scale 1

Scale 2

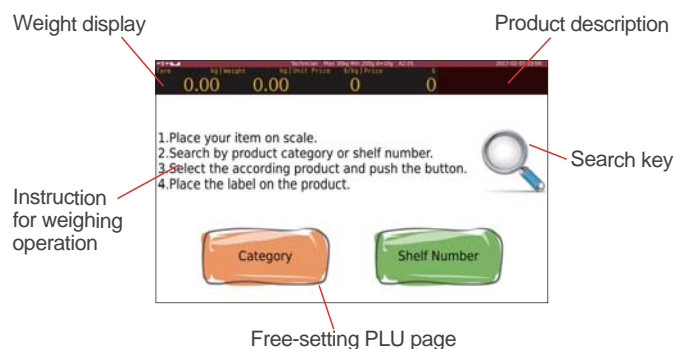

.....

Scale No. N

## Self service operation

Easy self-service operation. Simply follow the instruction to complete product labeling.

## Product Specification

Operating System	TOS 2.0 Embedded system
Display	Operator display: 18.5 inch Resistive touch screen
Housing	ABS plastic housing 280x385mm stainless steel housing
Printer	Built-in thermal label printer Printing width: 54mm Printing speed: Max 100mm/sec Side cassette label printer
Communication	2 x USB port 2 x RS-232 1 x RJ45 for Ethernet 1 x RJ11 for cash drawer 1 x Mini USB Optional WIFI

### Peripheral :

Keyboard

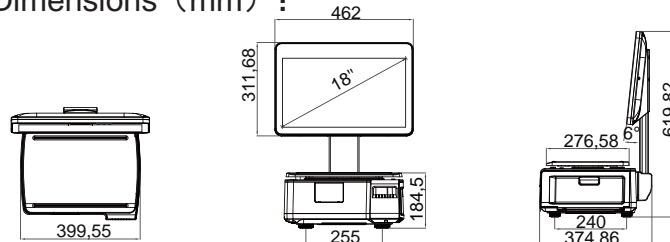

Scanner

Mouse
